

BRITISH FINANCE BILL.

INCREASING ASSESSMENTS.
APPEAL ALLOWED.

LONDON, July 7. In the debate on the Finance Bill yesterday, in the House of Commons, Mr. Lloyd George, Chancellor of the Exchequer, in response to a strong recommendation from both sides of the House promised to insert a clause allowing an appeal from the decision of the commissioners regarding the assessment of the increase in the value of lands.

ESTATE MANAGERS' PROTEST.

EXCESSIVE PENALTIES.
Estate agents, mining engineers, and solicitors, representing the bulk of the Yorkshire and the Midlands coalfields at a conference at Sheffield, resolved that the penalties in the land and minerals clauses of the Finance Bill are excessive, and the bill is despotic in not allowing unrestricted the right of appeal.

LORD ABERYTHAW'S LAMENT.

CONFISCATION, NOT TAXATION.
Lord Abernyth, in a letter, affirms that the bill submitted by Mr. Lloyd George shows that there is nothing in the state of national finances requiring or justifying so fundamental and revolutionary a change of the system of taxation as he has introduced. Moreover, the proposals in some cases are not taxation, but confiscation.

CONDITION OF NEW ZEALAND.

THE MONETARY STRINGENCY.

A BANKER'S EXPLANATION.

LONDON, July 7. Mr. Robert Lugg, chairman of directors, presiding at the annual meeting of the National Bank of New Zealand, said that the dominant note of New Zealand last year had been financial stringency, mainly due to the reduction of value of the export surplus. Instead of there being a comfortable margin of profit to cover interest on loans, New Zealand exports had done little more than provide for the cost of export. Recent steady improvements in the outlook justified the hope of an early return of the accustomed prosperity of New Zealand.

PROTECTION FOR SHIPPING.

UNITED STATES PROPOSALS.

There is also a duty of six cents a ton, which is not to exceed 30 cents a ton, on vessels from all other foreign ports. These duties eliminate reciprocity in shipping duties.
